SEWAGE DISPOSAL SYSTEM

At Patel Institute of Science and Management, Bengaluru we understand the importance of maintaining a clean and healthy environment for our students and staff. With this in mind, we have implemented a highly efficient sewage disposal system to ensure that our campus remains free from any environmental hazards.

Our sewage disposal system has been designed to meet the highest standards of sanitation and hygiene. We have installed state-of-the-art equipment that ensures that all waste is effectively collected and disposed of in a safe and environmentally friendly manner.

Our system is constantly monitored to ensure that it is functioning at optimal levels, and we have trained professionals who are responsible for its maintenance and upkeep. This ensures that any issues or problems are promptly addressed and resolved.

We also conduct regular inspections and audits to ensure that our sewage disposal system is in compliance with all relevant regulatory requirements. This helps us to maintain a safe and healthy environment for everyone on our campus.

In addition, we also conduct regular awareness campaigns to educate our students and staff about the importance of proper waste management and sewage disposal. We believe that creating
